

FasFil® EZ™ Paper Void-Fill System

Improve Efficiency, Performance and Sustainability

Sealed Air's innovative FasFil® EZ™ paper void-fill system delivers a solution for small-cell packing stations. It's perfect for customers who need a packing system that improves performance, productivity, shipping quality and offers responsible packaging.

- System positioning is flexible. Mount the FasFil® EZ™ on a floor stand or on a table and adjust the system to the height desired.
- FasFil® EZ™ solution now offers a choice of paper materials, fanfold or roll stock configurations, both with our exclusive 100% recycled content.

System Options

Smarter, Faster, and Easier

The FasFil® EZ™ system lets your operation run at its best. Simple footswitch operation produces continuous output with the press of a pedal. The ergonomically designed built-in cutting mechanism allows easy release of paper.

You will enjoy superior packaging output quality — every day. The FasFil® EZ™ system has a unique crimping mechanism to help you make more efficient use of packaging materials by yielding more cubic feet.

Floor Stand

Tabletop Model

MORE CHOICES FOR BETTER RESULTS

A variety of options help you improve efficiency by saving time, energy and material:

- The output length control feature delivers customized paper lengths eliminating excess material with each press of the pedal.

Weight (without material)

72.9 lbs / 33 kg

Table Stand Weight

56.3 lbs / 25.5 kg

Overall Size (L x W x H)

71" x 42" x 42" / 180 cm x 107 cm x 107 cm

Electrical

100-120 VAC,
50/60 Hz, Single
Phase, 15A Service
