

Instapak® Simple™ Foam-in-Bag Packaging System.

The simple solution for superior packaging.

True to its name, the Instapak® Simple™ system is our easiest to use foam-in-bag system yet, merging the premium performance of Instapak® foam packaging with an on-demand delivery system that requires minimal training and service.

SIMPLY SUPERIOR FEATURES

- What sets the Instapak® Simple™ system apart from other foam packaging methods:
- Powered through a standard electrical outlet
- Pre-set push button operation
- Small 2.5 gallon material bottles snap into place
- Designed to require minimal service
- Packaging that just works, right out of the box
- Compact, mobile platform

NO MESS, NO FUSS

In addition to being easy-to-use, the Instapak® Simple™ system is virtually mess-free. All foam components and materials are self-contained at all times, eliminating clean-up concerns. And thanks to simplified operation, the Instapak® Simple™ system is also mess-up free — packagers are assured consistent, pre-determined packaging material every time.

MINIMAL INVESTMENT

The Instapak® Simple™ system utilizes new foam mixing technology that eliminates pumps and heating elements that larger volume systems require. Foam components are delivered in practical containers, reducing the need to buy and store foam components in bulk.

REDUCE AND RECYCLE

Just-in-time foam-in-bag packaging expands on site and ensures the right amount of material is used every time, eliminating excess packaging. The component bottles can be recycled with number two HDPE plastics for hassle-free, responsible disposal.
